

The Power of Trust

## Global Personalities

In order to make sense of the changes influencing world markets, it is important to hear from the people directly involved in these international issues.

Over the years, Datamatix events have welcomed many world-renowned personalities as chief guests and keynote speakers, offering regional professionals the unique opportunity to interact with world leaders and experts who are on the cutting edge of their fields of specialization.

Because of their direct involvement in international affairs, these leaders are uniquely positioned to comment on the forces shaping today's world and provide insight and practical guidance to delegates.

**"Success is the good fortune that comes from aspiration, desperation, perspiration and inspiration."**

Evan Esar
